B2. Criteria for election of new associate members

An *associate member* needs to fulfill the following criteria:
He/she should
- hold a position at Lund University/Skåne University Hospital
- lead a research project related to BAGADILICO's research programme
- be a member in a research group led by a PI in BAGADILICO or a collaborator to a PI in BAGADILICO.

To be elected, a new member should state an interest in being involved in BAGADILICO and contributing to one of the work packages. The new member should be nominated by two board members and they should send a written motivation and the person’s CV to the coordinator. The coordinator / vice coordinator may contact the nominee for a short meeting prior to distributing the CV and the motivation letter to the board. Thereafter, 2/3 of the board will have to agree to the person’s election.
