Glomerular endotheliosis in normal pregnancy and pre-eclampsia.
BJOG. 2003 Sep;110(9):831-6.

Serum cystatin C reflects glomerular endotheliosis in normal, hypertensive and pre-eclamptic pregnancies.
BJOG. 2003 Sep;110(9):825-30.

Herbst A, Wide-Swensson D, Ingemarsson I.
Significant delay of birth in advanced preterm labour at 23 gestational weeks with an oxytocin antagonist.

Teleman PM, Gunnarsson M, Lidfeldt J, Nerbrand C, Samsioe G, Mattiasson A.
Urethral pressure changes in response to squeeze: a population-based study in healthy and incontinent 53- to 63-year-old women.

Jansson T, Hernandez-Andrade E, Lingman G, Marsál K.
Estimation of fractional moving blood volume in fetal lung using Power Doppler ultrasound, methodological aspects.

Kitlinski ML, Källén K, Marsál K, Olofsson P.
Gestational age-dependent reference values for pH in umbilical cord arterial blood at term.

Bottalico B, Pilka R, Larsson I, Casslen B, Marsal K, Hansson SR.
Plasma membrane and vesicular monoamine transporters in normal endometrium and early pregnancy decidua.

Sjöström K, Thelin T, Marsál K, Valentin L.
Effects of maternal anxiety on perception of fetal movements in late pregnancy.

Procházka M, Happach C, Marsál K, Dahlbäck B, Lindqvist PG.
Factor V Leiden in pregnancies complicated by placental abruption.
BJOG. 2003 May;110(5):462-6
Pirhonen JP, Lindqvist PG, Marsal K.
A longitudinal study of maternal oxygen saturation during short-term submaximal exercise.

Fetal electrocardiography in labor and neonatal outcome: data from the Swedish randomized controlled trial on intrapartum fetal monitoring.

Bottalico B, Pilka R, Larsson I, Casslen B, Marsal K, Hansson SR.
Plasma membrane and vesicular monoamine transporters in normal endometrium and early pregnancy decidua.

Ullberg U, Lingman G, Ekman-Ordeberg G, Sandstedt B.
Hyrtl's anastomosis is normally developed in placentas from small for gestational age infants.

Li C, Samsioe G, Borgfeldt C, Lidfeldt J, Agardh CD, Nerbrand C.
Menopause-related symptoms: what are the background factors? A prospective population-based cohort study of Swedish women (The Women's Health in Lund Area study).

Borgfeldt C, Bendahl PO, Fernö M, Casslén B.
High preoperative plasma concentration of tissue plasminogen activator (tPA) is an independent marker for shorter overall survival in patients with ovarian cancer.

Borgfeldt C, Bendahl PO, Gustavsson B, Långström E, Fernö M, Willén R, Grenman S, Casslén B.
High tumor tissue concentration of urokinase plasminogen activator receptor is associated with good prognosis in patients with ovarian cancer.

Li C, Samsioe G, Borgfeldt C, Bendahl PO, Wilawan K, Aberg A.
Low-dose hormone therapy and carbohydrate metabolism.
