

Preliminary schedule MALT-meeting 2016

JUNE 15	Arrival, registration and buffet dinner at Elite Hotel Mollberg	Buffet dinner starts at 19:00
JUNE 16		
Time	Speaker/activity	Topic
8:00-8:15	Marcus Carlsson	Welcome/Information
Session 1	Chair Henrik Engblom Co-chair Elin Trägårdh	Multimodality to quantify acute ischemia
8:15-8:45	Thomas Åkesson-Lindow (YI)	The Olson Method for identifying and localizing acute transmural ischemia
8:45-9:15	Jacob Almer (YI)	QRS duration as a measure of collateral flow and acute ischemia
9:15-9:45	Yama Fakhri (YI)	Prehospital ECG indices of ischemia
9.45-10.15	Coffee break	
Session 2	Chair Martin Ugander	LBBB
10:15-10.45	Peter Eriksson	Insights into LBBB from genomic and population studies
10.45-11.15	Björn Wieslander (YI)	LBBB and scar sizing
11:15-11.45	Fredrik Hedeer (YI)	Lessons learned of LBBB from SPECT and MRI
11:45-12:15	Joris Wanten (YI)	Possible explanation for the discordant T-waves in LBBB
12.15-13:15	Lunch	
13.15	Departure, social event	
JUNE 17		
Session 3	Chair Peter Clemmensen, Co-chair Thomas Engström?	Multicenter trials using CMR and ECG in STEMI
8:00-8:30	Henrik Engblom	What have we learned from multicenter MR studies on cardioprotection
8:30-9:00	Peter Clemmensen	What have we learned from multicenter ECG studies on cardioprotection
9:00-9:30		
9:30-10:00	Coffee break	
Session 4	Chair Rasmus Borgquist	Mechanisms for ventricular fibrillation
10:00-10:30	Markus Lingman	QRS-T angle in ACS to predict VF and SCD
10:30-11:00	Marina Demidova	ICD VF and STEMI?
11:00-11:30		
11:30-12:00	Ksenia Sedova (YI?)	QRS dispersion and VF
12:00-13:00	Lunch	
Session 5	Chair Frits Prinzen Co-chair Björn Wieslander	Cardiac resynchronization
13:00-13:30	Twan van Stipdonk (YI?)	What ECG criteria should be used for CRT selection.
13:30-14:00	Eline Engels	Vectorcardiographic analysis during Multipoint Pacing
14:00-14:30	Marcus Hjorth(YI)	Dyssynchrony in RBBB + LAFB
14:30-15:00	Jonathan Jacobsson (YI)	Prediction of arrhythmia and mortality from CRT-device monitoring
15:00-15:30	Coffee break	
Session 6	Chair Ljuba Bacharova	Ventricular hypertrophy and hypertension
15:30-16:00	Marin Maanja (YI)	Diffuse fibrosis measurements by MRI (ECV) and relationship to wall tension in hypertrophy
16:00-16:30	Vivian Kamphuis (YI)	Normal values for pediatric Vector ECG, validation with echocardiography
16:30-17:00	Todd Schlegel	LV Hypertrophy and advanced ECG
17:00-17:30	Nina Hakacova	Relation of papillary muscles and ECG
19:00	Dinner
