Announcement: Post doc scholarship in Microbiology, immunology and glycobiology (MIG)

Scholarship

The post-doctoral research training is focused on cancer biology and the development of new tumor killing molecules. The project will involve a broad range of technologies, from cell and molecular biology, genetics and transcriptomics, studies in murine cancer models to analyses of clinical study samples. Training will also include bioinformatic analysis, data management and public presentations.

Qualifications required

We are looking for highly motivated and enthusiastic researchers who recently completed their PhD. The applicant is expected to have recent first author publications in internationally renowned peer-reviewed journals. Ability to work independently, as well as part of a team is essential. Excellent verbal and written communication skills in English are expected.

Placement: Department of Laboratory Medicine, Microbiology, immunology and glycobiology (MIG)

Ref No: V 2018/34
Duration: 2 years
Starting time: February 1, 2018
Last day for applying: 2018-01-28
