Announcement Post doc scholarship

Faculty of Medicine

Department of Laboratory Medicine, Lund

Announcement: Post doc scholarship in Cancer Biology

Translational Cancer Research unit at Lund University

The Division of Translational Cancer Research (TCR) consists of seven research groups with different areas of expertise, but together working on project with the common goal of improving cancer diagnostics and cancer therapy. The research groups belonging to TCR systematically collect multidisciplinary data focused on the mammalian setting for enhanced medical relevance.

The focus of our experimental settings includes human genetics, mouse genetics, human tissue platforms, stem cell biology and in addition analyzing human patient materials, aiming at creating novel diagnostic tools and novel therapeutic modalities. We believe that the impact of ongoing projects at TCR will open up new horizons and opportunities for individualized treatment of cancer patients, which includes diagnostic tests for matching the right drug to the right patient.

Scholarship

A postdoc scholarship is available for a highly motivated candidate with a strong background in cell and molecular biology as well as cancer biology. The successful candidate will focus research efforts on elucidation of molecular mechanisms regulating the progression of cancer using a variety of approaches including molecular, cellular, and in vivo methods.

Qualifications required

The scholarship requires PhD degree with a strong background in molecular biology and mouse tumor models. Experience with subcutaneous injection of tumor cells into animals and Bioluminescence imaging is preferred. Highly motivated individuals with excellent communication skills and the ability to work effectively within a research team are encouraged to apply.

The applicant should not have been employed by Lund University within the last two years in order to be able to receive a scholarship. PhD degree should not be more than three years old at the last day of applying.

Placement: Department of Laboratory Medicine, Translational Cancer Research unit at Medicion Village, Lund, Sweden

Ref No: V 2018/1213

Duration: 2 years, the scholarship is set up six months at the time

Starting date: Can be discussed (Earliest start date: 2019-01-10)

Last day for applying: 2019-02-28
