

Registration form to web-based Laboratory Animal Science Courses at Lund University 2019

To register for any web-based LAS education, please fill in the form below electronically. If you do not find your specific species in the list, check the box for “Unspecific modules”. You will be registered for the “Rodents” course, but be requested to take those modules that are more general. When the right course is available, you will need to register for it.

To register for the course in “Swedish Legislation and Ethics”, you will need to complement your registration with a certificate of a previous LAS education, i.e. from another country.

The fee is for registering to the course, and not when or if you complete. It is needed to cover course development and maintenance. For PhD-students registered at Medicinska Fakulteten, the fee will be covered by “doktorandutbildningen”. **If you are a PhD-student, please send the filled in form to phdcourses@med.lu.se instead of the djurutbildning address.** Additional cost might be charged depending on the practical examination.

Send this form to [djurutbildning@med.lu.se](mailto:djuritbildning@med.lu.se) or contact us if you have further questions.
