Announcement: Post doc scholarship in Translational Cancer Research

Scholarship
The scholarship is aimed at supporting an independent, self-motivated postdoctoral fellow with a strong interest in cancer modeling and translational research. The person will study the mechanisms of chemotherapy resistance in ovarian cancer and will have the opportunity to learn new skills as the project requires method development. The successful applicant must have a solid background in cancer research, primary cell culture and/or complex cell culture systems and animal models.

Qualifications required
The applicant should not have been employed by Lund University within the last two years and has not been awarded a scholarship by Lund University in order to be able to receive a scholarship. PhD degree should not be more than three years old on the last day of applying.

The PhD degree should be in a preclinical subject with proven proficiency in cell/molecular biology techniques. Experience in cancer biology, cellular signaling, mouse models and/or 3D-cell culture is desirable. Applicants should have the ability to design and execute experiments independently and develop new methodologies. Good communication skills and good knowledge of English are required. Knowledge of handling patient materials is not required but advantageous. Research experience in ovarian cancer is a plus.

Placement: Division of Translational Cancer Research, Medicon Village
Ref No: V2019/2154
Duration: 2 years
Starting time: 1st of April 2020
Last day for applying: 26th of January 2020
