Announcement: Post doc scholarship in Cellular Reprogramming and Immunity

Scholarship
For education and training in the fields of cellular reprogramming and dendritic cell biology.

At the Department of Laboratory Medicine, Division of Molecular Medicine and Gene Therapy, in the Filipe Pereira lab, we are now announcing a postdoctoral scholarship within the field of Cellular Reprogramming and Immunity. The aims and objectives of the scholarship is:

1) To gain an overall understanding of the concepts of cellular reprogramming and hematopoieses within the framework of a postdoctoral research project.
2) To learn the approaches employed to study dendritic cells and cellular reprogramming.
3) To learn how to conceptualize and develop novel approaches for the understanding of myeloid reprogramming.
4) To acquire independence and develop a research project unrelated to previous projects performed during PhD.
5) To acquire experience in tutoring and the laboratory co-supervision of junior members of the group.
6) To develop scientific writing skills.

Qualifications required
The applicant should have a PhD degree with training in at least one of the following: molecular biology, biochemistry, cell biology or immunology. A PhD in the fields of dendritic cell biology, tumor immunology, cellular reprogramming, transcription or cancer biology are preferential. The applicant should not have been employed by Lund University within the last two years in order to be able to receive a scholarship. PhD degree should not be more than three years old at the last day of applying.
Placement: Filipe Pereira lab, Molecular Medicine and Gene Therapy
Ref No: V 2021/1905
Duration: Two years
Starting time: 2021-08-01
Last day for applying: 2023-07-31
For further information please contact:
Associate Professor Filipe Pereira
