Guidelines for PIs regarding gradual adaptation to regular activities on campus

According to the Vice Chancellor’s decision, the University shall begin a gradual and orderly adaptation to regular activities without pandemic restrictions as of September 16, to be fully implemented on November 1.

During the time up to November 1, continued restrictions apply, this means:

- Stay at home in case of symptoms of illness
- Avoid congestion in the workplace
- Digital/hybrid meetings should continue to be used where it is possible and good for business
- Continue to maintain good hand hygiene

In order to achieve an orderly return, each PI must:

- Hold regular coordination meetings with their staff
- Inform staff that vaccination can take place during working hours
- If you as a PI need help and support: please contact HR at the department
- Review, and if necessary revise, previous measures to counteract the spread of infection. In particular, opportunities for good hand hygiene and avoidance of congestion must be considered. Hand sanitizer etc and, if needed, help with furnishing can be ordered from MedService
- Measures on the floor level must take place in collaboration with other activities on the floor level
